

# CS2 Cotton Inserter Automatically Upgrades Filling Speed, Adjustability

**DEITZ**  
COMPANY INC.  
DATA SHEET

The Pharmafill CS2 Cotton Inserter automatically separates cotton, rayon and polyester from continuous rolls into individual pieces and inserts them into the center of bottles or other containers at speeds of up to 90 bottles per minute. It integrates many of the high-speed technology advances from the CS10 model with the economical advantages of the entry level CS1 model to offer speed, reliability and adjustable versatility all in one model.

The automated Pharmafill CS2 Cotton Inserter offers a series of upgrades beyond the CS1 including all digital controls, all motorized adjustments, and stepper motor for continuously quiet operation.

- Compact footprint just 30" wide x 32" deep
- Motorized height adjustment
- Inserts from 1 – 9 pieces per bottle
- Piece length from 2" - 9"
- 60 – 90 pieces per minute
- Bottle heights 1" - 9"
- No-knife design safely separates cotton from coil

Touch-screen, full-color HMI ensures fast, easy setup and consistent operation. All digital controls and motorized adjustments.

Comes with durable, clear, plastic front safety guard and hinged door for safe, easy access to the interior.

All stainless steel and acetal in product contact areas.

Comes mounted on casters with leveling pads – just roll it up to the conveyor.

Proprietary sensor system monitors bottle position, verifies cotton is present, and automatically stops the process if cotton is missing or if no bottle is available for filling.

**Stepper motor eliminates clutch/brake for quiet, virtually no maintenance operation.**
